

SURVIVING SECURITY

Building Federal/Local Partnerships in the Region

MONDAY

November 8, 2004

8:30 am - 3:00 pm

What are Code Orange alerts, closed streets, and bunkered public buildings doing to the vitality of our communities and quality of life in the National Capital Region? This conference moves beyond the usual discussion of bollards and jersey barriers to examine the wider impacts of security measures on local economic development, transportation systems, and urban design. In a program designed for senior policy makers, elected officials, and private-sector leaders, participants will be invited to join speakers and panelists in developing new strategies to maintain economically vibrant communities in a post-9/11 world.

CONFERENCE SPONSORS:

National Capital Planning Commission

The Commission provides overall planning guidance for federal land and buildings in the National Capital Region, which includes the District of Columbia and surrounding counties in Maryland and Virginia.

Metropolitan Washington Council of Governments

The Council of Governments provides a focus for action and develops sound regional responses to such issues as the environment, affordable housing, economic development, health and family concerns, human services, population growth, public safety, and transportation.

Greater Washington Board of Trade

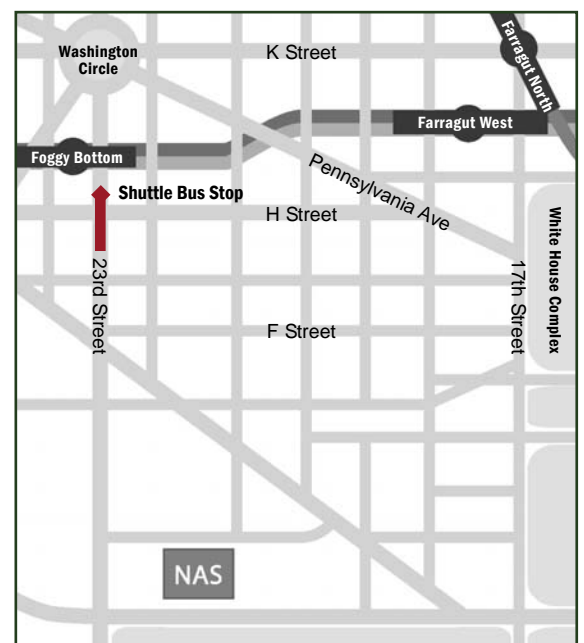

The Board of Trade creates business opportunities through networking events and community-building projects, represents businesses and their employees on a wide range of issues, and markets the region as a vibrant place to work and live.

Federal Facilities Council

The Council identifies and advances technologies, processes, and facilities management practices that improve the performance of facilities over their entire life-cycle, from planning to disposal.

LOCATION

The Conference will be held at the National Academy of Sciences (NAS), 2100 C Street, NW, Washington, DC. Parking is not available on-site, and you are encouraged to use a taxi or Metro. NAS is located about 10 blocks from the Foggy Bottom Metro Station (Blue and Orange Lines). A shuttle bus designated for the National Academies (or Abe's Transportation) operates between the Foggy Bottom Metro Station (on 23rd Street) and the NAS building at 7:15, 8:15, and 9:15 a.m.

Building Federal/Local Partnerships in the Region PROGRAM

Featuring panels designed to encourage provocative debate and audience participation, the program will focus on the new security environment that is affecting the Washington region.

8:00-8:45 **REGISTRATION**

8:45-9:00 **WELCOME**

9:00-9:30 **Setting the Stage: The Federal Presence in the Region**
Stephen Fuller, *Director, Center for Regional Analysis, George Mason University*

9:30-10:30 **Leasing and Location Choices in a Secure Environment**
How are federal security considerations changing land-use patterns, local economic development goals, and private-sector growth strategies?
